Commissioner for Patents

Please refer to the attached document.

Manuel Mendez  
Primary Examiner  
Art Unit: 3763

Art Unit: 3763

***Response to Amendment***

The reply filed on 04/11/2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

The examiner of record sincerely appreciates the efforts by the applicant to clarify the issues presented on the last office action. Unfortunately, in the request for clarification, the examiner did not include a request for further explanations concerning the support of the amendment that states "including a basal profile and a square wave bolus profile or a dual wave bolus profile". The amendment discloses two options: (1) the use of a basal profile in combination with a square wave bolus profile and (2) a dual wave bolus profile. In order to ensure compliance with Section 112, first paragraph, clarification is requested as to the support in the specification for options (1) and (2). Again, the examiner apologizes for not including this request in the last action. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Manuel Mendez whose telephone number is 703-272-4977. The examiner can normally be reached on 0730-1800 hrs.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Nicholas D. Lucchesi can be reached on 571-272-4977. The fax phone
